SUBJECT INDEX

Accident factors

Impact of Fuel Conservation Measures on Safe Truck Downgrade Speeds, Brian L. Bowman and Janet A. Coleman, TE July 89 p351-369.

Accident prevention

General Aviation Collision-Avoidance Alternatives, H. Paul Shuch, TE Sept. 89 p474-492.

Accidents

Analysis of Heavy Truck Accident Data—Exposure Based Approach, Snehamay Khasnabis and Ramiz Al-Assar, TE May 89 p298-304.

Impact of Fuel Conservation Measures on Safe Truck Downgrade Speeds, Brian L. Bowman and Janet A. Coleman, TE July 89 p351-369.

Adaptive systems

Use of Binary Choice Decision Process for Adaptive Signal Control, Feng-Bor Lin, TE May 89 p270-282.

Age factors

Analysis of Water Distribution Pipe Failure Types in Winnipeg, Canada, I. C. Goulter and A. Kazemi, TE Mar. 89 p95-111.

Air pollution

Noise and Air Pollution of High Speed Rail Systems, R. L. Wayson and W. Bowlby, TE Jan. 89 p20-36.

Air routes

Hubbing and Airline Costs, Mark Hansen and Adib Kanafani, TE Nov. 89 p581-590.

Air traffic

General Aviation Collision-Avoidance Alternatives, H. Paul Shuch, TE Sept. 89 p474-492.

Air transportation

Hubbing and Airline Costs, Mark Hansen and Adib Kanafani, TE Nov. 89 p581-590.

Aircraft

General Aviation Collision-Avoidance Alternatives, H. Paul Shuch, TE Sept. 89 p474-492.

Airlines

Hubbing and Airline Costs, Mark Hansen and Adib Kanafani, TE Nov. 89 p581-590.

Airport terminals

Hubbing and Airline Costs, Mark Hansen and Adib Kanafani, TE Nov. 89 p581-590.

Alignment

Computer-Aided Design for Horizontal Alignment, D. J. Walton and D. S. Meek, TE July 89 p411-424.

Backfills

Behavior and Design of Buried Very Flexible Plastic Pipes, Jey K. Jeyapalan, S. Wesley Ethiyajeevakaruna and Bruce A. Boldon, TE Nov. 87 p642-657.

E' and Its Variation With Depth, James D. Hartley and James M. Duncan, TE Sept. 87 p538-553.

Benefit cost analysis

Capital Cost and Operations of High-Speed Rail System in West Germany, Gerhard Pintag, TE Jan. 89 p57-67.

Freeway Surveillance and Control System Using Simulation Model, Rong-Shyang Ju and T. H. Maze, TE July 89 p425-437.

Braking

Impact of Fuel Conservation Measures on Safe Truck Downgrade Speeds, Brian L. Bowman and Janet A. Coleman, TE July 89 p351-369.

Buckling

Pipe Soil Stiffness Ratio Effect on Flexible Pipe Buckling Threshold, Kenneth K. Kienow and Robert C. Prevost, TE Mar. 89 p112-129.

Buried pipes

Analysis and Design of RPM and Other Composite Underground Pipelines, Jey K. Jeyapalan, Michael Thiyagaram, Wesley E. Saleira and B. A. Magid, TE May 89 p219-231.

Behavior and Design of Buried Very Flexible Plastic Pipes, Jey K. Jeyapalan, S. Wesley Ethiyajeevakaruna and Bruce A. Boldon, TE Nov. 87 p642-657.

E' and Its Variation With Depth, James D. Hartley and James M. Duncan, TE Sept. 87 p538-553.

Seismic Risk Analysis of Buried Pipelines, El-Sayed A. Mashaly and Tushar K. Datta, TE May 89 p232-252.

Viscoelastic Approach to Modeling Performance of Buried Pipes, Koon Meng Chua and Robert L. Lytton, TE May 89 p253-269.

Buried structures

Loads on a Rigid Box Buried in a Nonlinear Medium, David Z. Yankelevsky, TE Sept. 89 p461-473.

Buses

Bus-Ride Panel Rating of Pavement Serviceability, T. F. Fwa and K. T. Gan, TE Mar. 89 p176-191.

Capacity

Methodology for Optimal Design of a Parking Lot, Reza Iranpour and David Tung, TE Mar. 89 p139-160.

Case reports

Safety of High-Occupancy Vehicle Lanes Without Physical Separation, Thomas F. Golob, Wilfred W. Recker and Douglas W. Levine, TE Nov. 89 p591-607.

Collisions

General Aviation Collision-Avoidance Alternatives, H. Paul Shuch, TE Sept. 89 p474-492.

Composite materials

Analysis and Design of RPM and Other Composite Underground Pipelines, Jey K. Jeyapalan, Michael Thiyagaram, Wesley E. Saleira and B. A. Magid, TE May 89 p219-231.

Computer applications

Computer-Aided Design for Horizontal Alignment, D. J. Walton and D. S. Meek, TE July 89 p411-424.

Computer programming

Multi-Objective Programming Approach for Routing Hazardous Materials, Konstantinos G. Zografos and Christian F. Davis, TE Nov. 89 p661-673.

Computerized simulation

Use of Binary Choice Decision Process for Adaptive Signal Control, Feng-Bor Lin, TE May 89 p270-282.

Concrete pavements

Effect of Increased Truck Tire Pressure on Asphalt Concrete Pavements, Ok-Kee Kim, Chris A. Bell and James E. Wilson, TE July 89 p329-350.

Failure of Concrete Pavements in Test Tracks, Yu T. Chou, TE Sept. 89 p493-504.

Pumping Prediction Model for Highway Concrete Pavements, Adriaan J. VanWijk, Jesus Larralde, C. William Lovell and Wai F. Chen, TE Mar. 89 p161-175.

Concrete pipes

Service Life Assessment of Concrete Pipe Culverts, Fabian C. Hadipriono, Richard E. Larew and Oh-Young Lee, TE Mar. 88 p209-220.

Cost analysis

HSR Cost Estimating Techniques in Pennsylvania, Robert E. Schmelz, TE Jan. 89 p84-94.

Hubbing and Airline Costs, Mark Hansen and Adib Kanafani, TE Nov. 89 p581-590.

Cost effectiveness

Hubbing and Airline Costs, Mark Hansen and Adib Kanafani, TE Nov. 89 p581-590.

Cost estimates

HSR Cost Estimating Techniques in Pennsylvania, Robert E. Schmelz, TE Jan. 89 p84-94.

Culverts

Model Study of Safety Grating for Culvert Inlet, Richard N. Weisman, TE Mar. 89 p130-138.

Service Life Assessment of Concrete Pipe Culverts, Fabian C. Hadipriono, Richard E. Larew and Oh-Young Lee, TE Mar. 88 p209-220.

Curvature

Computer-Aided Design for Horizontal Alignment, D. J. Walton and D. S. Meek, TE July 89 p411-424.

Data collection

Application of VADAS to Complex Traffic Environments, William Young, TE Sept. 89 p521-536.

Decision making

Use of Binary Choice Decision Process for Adaptive Signal Control, Feng-Bor Lin, TE May 89 p270-282.

Deflection

E' and Its Variation With Depth, James D. Hartley and James M. Duncan, TE Sept. 87 p538-553.

Pumping Prediction Model for Highway Concrete Pavements, Adriaan J. VanWijk, Jesus Larralde, C. William Lovell and Wai F. Chen, TE Mar. 89 p161-175.

Delay time

Influence of Stopped Delay on Driver Gap Acceptance Behavior, Olusegun Adebisi and George N. Sama, TE May 89 p305-315.

Design data

AASHTO Flexible Pavement Design Equation Study, Ronald L. Baus and Jeth A. Fogg, TE Sept. 89 p559-564.

Design improvements

AASHTO Flexible Pavement Design Equation Study, Ronald L. Baus and Jeth A. Fogg, TE Sept. 89 p559-564.

Drainage

Pumping Prediction Model for Highway Concrete Pavements, Adriaan J. VanWijk, Jesus Larralde, C. William Lovell and Wai F. Chen, TE Mar. 89 p161-175.

Driver behavior

Influence of Stopped Delay on Driver Gap Acceptance Behavior, Olusegun Adebisi and George N. Sama, TE May 89 p305-315.

Earthquakes

Seismic Risk Analysis of Buried Pipelines, El-Sayed A. Mashaly and Tushar K. Datta, TE May 89 p232-252.

Economic analysis

Cost of Driving Comfort and Convenience for Two-Lane Highways, Satish C. Sharma and Pawan J. Lingras, TE May 89 p283-297.

Economics

Capital Cost and Operations of High-Speed Rail System in West Germany, Gerhard Pintag, TE Jan. 89 p57-67.

Elastic analysis

Effect of Increased Truck Tire Pressure on Asphalt Concrete Pavements, Ok-Kee Kim, Chris A. Bell and James E. Wilson, TE July 89 p329-350.

Environmental impact

Noise and Air Pollution of High Speed Rail Systems, R. L. Wayson and W. Bowlby, TE Jan. 89 p20-36.

Environmental issues

Critical Issues in Safe Transport of Hazardous Materials, Mark Abkowitz, George List and A. Essam Radwan, TE Nov. 89 p608-629.

Erosion

Pumping Prediction Model for Highway Concrete Pavements, Adriaan J. VanWijk, Jesus Larralde, C. William Lovell and Wai F. Chen, TE Mar. 89 p161-175.

Errors

Experimental Design Approach to NonDestructive Testing of Pavements, Jacob Uzan and Robert L. Lytton, TE Sept. 89 p505-520.

Evaluation

Freeway Surveillance and Control System Using Simulation Model, Rong-Shyang Ju and T. H. Maze, TE July 89 p425-437.

HSR Vehicle Performance Characteristics, John A. Bachman, TE Jan. 89 p48-56.

Failure

Failure of Concrete Pavements in Test Tracks, Yu T. Chou, TE Sept. 89 p493-504.

Failures

Analysis of Water Distribution Pipe Failure Types in Winnipeg, Canada, I. C. Goulter and A. Kazemi, TE Mar. 89 p95-111.

Failures, investigations

Analysis of Water Distribution Pipe Failure Types in Winnipeg, Canada, I. C. Goulter and A. Kazemi, TE Mar. 89 p95-111.

Fatigue

Effect of Increased Truck Tire Pressure on Asphalt Concrete Pavements, Ok-Kee Kim, Chris A. Bell and James E. Wilson, TE July 89 p329-350.

Field tests

Failure of Concrete Pavements in Test Tracks, Yu T. Chou, TE Sept. 89 p493-504.

Finite element method

Behavior and Design of Buried Very Flexible Plastic Pipes, Jey K. Jeyapalan, S. Wesley Ethiyajeevakaruna and Bruce A. Boldon, TE Nov. 87 p642-657.

Flexible pavements

AASHTO Flexible Pavement Design Equation Study, Ronald L. Baus and Jeth A. Fogg, TE Sept. 89 p559-564.

Flexible pipes

Behavior and Design of Buried Very Flexible Plastic Pipes, Jey K. Jeyapalan, S. Wesley Ethiyajeevakaruna and Bruce A. Boldon, TE Nov. 87 p642-657.

E' and Its Variation With Depth, James D. Hartley and James M. Duncan, TE Sept. 87 p538-553.

Pipe Soil Stiffness Ratio Effect on Flexible Pipe Buckling Threshold, Kenneth K. Kienow and Robert C. Prevost, TE Mar. 89 p112-129.

Viscoelastic Approach to Modeling Performance of Buried Pipes, Koon Meng Chua and Robert L. Lytton, TE May 89 p253-269.

Germany

Simulating Activity Chains: German Approach, Kay W. Axhausen and Raimund Herz, TE May 89 p316-325.

Hazardous materials

Critical Issues in Safe Transport of Hazardous Materials, Mark Abkowitz, George List and A. Essam Radwan, TE Nov. 89 p608-629.

Multi-Objective Programming Approach for Routing Hazardous Materials, Konstantinos G. Zografos and Christian F. Davis, TE Nov. 89 p661-673.

Highway costs

Cost of Driving Comfort and Convenience for Two-Lane Highways, Satish C. Sharma and Pawan J. Lingras, TE May 89 p283-297.

Highway design

Computer-Aided Design for Horizontal Alignment, D. J. Walton and D. S. Meek, TE July 89 p411-424.

Cost of Driving Comfort and Convenience for Two-Lane Highways, Satish C. Sharma and Pawan J. Lingras, TE May 89 p283-297.

Prediction of Design Hourly Volume from Road Users' Perspective, Satish C. Sharma and Jin Y. Oh, TE Nov. 89 p646-660.

Highway planning

Prediction of Design Hourly Volume from Road Users' Perspective, Satish C. Sharma and Jin Y. Oh, TE Nov. 89 p646-660.

Highway safety

Critical Issues in Safe Transport of Hazardous Materials, Mark Abkowitz, George List and A. Essam Radwan, TE Nov. 89 p608-629.

Safety of High-Occupancy Vehicle Lanes Without Physical Separation, Thomas F. Golob, Wilfred W. Recker and Douglas W. Levine, TE Nov. 89 p591-607.

Highway usage

Cost of Driving Comfort and Convenience for Two-Lane Highways, Satish C. Sharma and Pawan J. Lingras, TE May 89 p283-297.

Prediction of Design Hourly Volume from Road Users' Perspective, Satish C. Sharma and Jin Y. Oh, TE Nov. 89 p646-660.

Highways

Critical Issues in Safe Transport of Hazardous Materials, Mark Abkowitz, George List and A. Essam Radwan, TE Nov. 89 p608-629.

Human behavior

Simulating Activity Chains: German Approach, Kay W. Axhausen and Raimund Herz, TE May 89 p316-325.

Hydraulics

Model Study of Safety Grating for Culvert Inlet, Richard N. Weisman, TE Mar. 89 p130-138.

Instrumentation

Performance of Full-Scale Pavements Under Accelerated Loading, Peter E. Sebaaly, David A. Anderson and Nader Tabatabaee, TE July 89 p370-388.

Intersections

Accuracy of Turning Flow Estimates at Road Junctions, Khair S. Jadaan, TE July 89 p438-449.

Traffic Platoon Dispersion Modeling, Richard W. Denney, Jr., TE Mar. 89 p193-207.

Kuwait

Accuracy of Turning Flow Estimates at Road Junctions, Khair S. Jadaan, TE July 89 p438-449.

Left-Turns

Effect of Platoons on Permissive Left-Turn Capacity: Pilot Study, Ragab M. Mousa and Nagui M. Rouphail, TE Mar. 89 p208-215.

Lime

Admixtures, Douglas O. A. Osula, TE Nov. 89, Evaluation p674-687.

Loading

Performance of Full-Scale Pavements Under Accelerated Loading, Peter E. Sebaaly, David A. Anderson and Nader Tabatabaee, TE July 89 p370-388.

Loads

Analysis and Design of RPM and Other Composite Underground Pipelines, Jey K. Jeyapalan, Michael Thiyagaram, Wesley E. Saleira and B. A. Magid, TE May 89 p219-231.

Loads on a Rigid Box Buried in a Nonlinear Medium, David Z. Yankelevsky, TE Sept. 89 p461-473.

Maintenance

Capital Cost and Operations of High-Speed Rail System in West Germany, Gerhard Pintag, TE Jan. 89 p57-67.

High-Speed Rail Track Design, Jan H. Zicha, TE Jan. 89 p68-83.

Model for Comparing Performance of Various Transit Maintenance Repair Policies, Utpal Dutta and T. H. Maze, TE July 89 p450-456.

Marketing

Hubbing and Airline Costs, Mark Hansen and Adib Kanafani, TE Nov. 89 p581-590.

Materials, properties

Performance of Full-Scale Pavements Under Accelerated Loading, Peter E. Sebaaly, David A. Anderson and Nader Tabatabaee, TE July 89 p370-388.

Mathematical models

Methodology for Optimal Design of a Parking Lot, Reza Iranpour and David Tung, TE Mar. 89 p139-160.

Models

Analysis of Climate Effects on Performance of Unpaved Roads, Gonzalo R. Rada, Charles W. Schwartz, Matthew W. Witczak and Siamak Jafroudi, TE July 89 p389-410.

Loads on a Rigid Box Buried in a Nonlinear Medium, David Z. Yankelevsky, TE Sept. 89 p461-473.

Model Study of Safety Grating for Culvert Inlet, Richard N. Weisman, TE Mar. 89 p130-138.

Pumping Prediction Model for Highway Concrete Pavements, Adriaan J. VanWijk, Jesus Larralde, C. William Lovell and Wai F. Chen, TE Mar. 89 p161-175.

Scheduling Method for Demand-Responsive Transportation System, Shinya Kikuchi and Jong-Ho Rhee, TE Nov. 89 p630-645.

Synthetic Models for Through Trips in Small Urban Areas, Arun Chatterjee and Meenakshi Raja, TE Sept. 89 p537-555.

Traffic Platoon Dispersion Modeling, Richard W. Denney, Jr., TE Mar. 89 p193-207.

Multiple objective analysis

Multi-Objective Programming Approach for Routing Hazardous Materials, Konstantinos G. Zografos and Christian F. Davis, TE Nov. 89 p661-673.

Noise measurement

Noise and Air Pollution of High Speed Rail Systems, R. L. Wayson and W. Bowlby, TE Jan. 89 p20-36.

Nondestructive tests

Experimental Design Approach to NonDestructive Testing of Pavements, Jacob Uzan and Robert L. Lytton, TE Sept. 89 p505-520.

Performance of Full-Scale Pavements Under Accelerated Loading, Peter E. Sebaaly, David A. Anderson and Nader Tabatabaee, TE July 89 p370-388.

Nuclear wastes disposal

Critical Issues in Safe Transport of Hazardous Materials, Mark Abkowitz, George List and A. Essam Radwan, TE Nov. 89 p608-629.

Operating costs

Operating and Maintenance Costs of the TGV High-Speed Rail System, Nicholas M. Brand and Marc M. Lucas, TE Jan. 89 p37-47.

Optimal design

Methodology for Optimal Design of a Parking Lot, Reza Iranpour and David Tung, TE Mar. 89 p139-160.

Parking facilities

Application of VADAS to Complex Traffic Environments, William Young, TE Sept. 89 p521-536.

Parking lots

Methodology for Optimal Design of a Parking Lot, Reza Iranpour and David Tung, TE Mar. 89 p139-160.

Pavement condition

Analysis of Climate Effects on Performance of Unpaved Roads, Gonzalo R. Rada, Charles W. Schwartz, Matthew W. Witczak and Siamak Jafroudi, TE July 89 p389-410.

Bus-Ride Panel Rating of Pavement Serviceability, T. F. Fwa and K. T. Gan, TE Mar. 89 p176-191.

Performance of Full-Scale Pavements Under Accelerated Loading, Peter E. Sebaaly, David A. Anderson and Nader Tabatabaee, TE July 89 p370-388.

Pavement damage

Analysis of Climate Effects on Performance of Unpaved Roads, Gonzalo R. Rada, Charles W. Schwartz, Matthew W. Witczak and Siamak Jafroudi, TE July 89 p389-410.

Pavement design

AASHTO Flexible Pavement Design Equation Study, Ronald L. Baus and Jeth A. Fogg, TE Sept. 89 p559-564.

Pumping Prediction Model for Highway Concrete Pavements, Adriaan J. VanWijk, Jesus Larralde, C. William Lovell and Wai F. Chen, TE Mar. 89 p161-175.

Pavement deterioration

Analysis of Climate Effects on Performance of Unpaved Roads, Gonzalo R. Rada, Charles W. Schwartz, Matthew W. Witczak and Siamak Jafroudi, TE July 89 p389-410.

Pumping Prediction Model for Highway Concrete Pavements, Adriaan J. VanWijk, Jesus Larralde, C. William Lovell and Wai F. Chen, TE Mar. 89 p161-175.

Pavements

Admixtures, Douglas O. A. Osula, TE Nov. 89, Evaluation p674-687.

Experimental Design Approach to NonDestructive Testing of Pavements, Jacob Uzan and Robert L. Lytton, TE Sept. 89 p505-520.

Performance of Full-Scale Pavements Under Accelerated Loading, Peter E. Sebaaly, David A. Anderson and Nader Tabatabaee, TE July 89 p370-388.

Pumping Prediction Model for Highway Concrete Pavements, Adriaan J. VanWijk, Jesus Larralde, C. William Lovell and Wai F. Chen, TE Mar. 89 p161-175.

Pedestrian traffic flow

Application of VADAS to Complex Traffic Environments, William Young, TE Sept. 89 p521-536.

Performance characteristics

HSR Vehicle Performance Characteristics, John A. Bachman, TE Jan. 89 p48-56.

Performance evaluation

Model for Comparing Performance of Various Transit Maintenance Repair Policies, Utpal Dutta and T. H. Maze, TE July 89 p450-456.

Performance standards

HSR Vehicle Performance Characteristics, John A. Bachman, TE Jan. 89 p48-56.

Pipeline design

Analysis and Design of RPM and Other Composite Underground Pipelines, Jey K. Jeyapalan, Michael Thiyagaram, Wesley E. Saleira and B. A. Magid, TE May 89 p219-231.

Pipelines

Analysis and Design of RPM and Other Composite Underground Pipelines, Jey K. Jeyapalan, Michael Thiyagaram, Wesley E. Saleira and B. A. Magid, TE May 89 p219-231.

Pipes

Analysis of Water Distribution Pipe Failure Types in Winnipeg, Canada, I. C. Goulter and A. Kazemi, TE Mar. 89 p95-111.

Planning

Capital Cost and Operations of High-Speed Rail System in West Germany, Gerhard Pintag, TE Jan. 89 p57-67.

Plastic pipes

Behavior and Design of Buried Very Flexible Plastic Pipes, Jey K. Jeyapalan, S. Wesley Ethiyajeevakaruna and Bruce A. Boldon, TE Nov. 87 p642-657.

Plastics

Viscoelastic Approach to Modeling Performance of Buried Pipes, Koon Meng Chua and Robert L. Lytton, TE May 89 p253-269.

Policies

Model for Comparing Performance of Various Transit Maintenance Repair Policies, Utpal Dutta and T. H. Maze, TE July 89 p450-456.

Pressures

Effect of Increased Truck Tire Pressure on Asphalt Concrete Pavements, Ok-Kee Kim, Chris A. Bell and James E. Wilson, TE July 89 p329-350.

Properties

Multi-Objective Programming Approach for Routing Hazardous Materials, Konstantinos G. Zografos and Christian F. Davis, TE Nov. 89 p661-673.

Pumping

Pumping Prediction Model for Highway Concrete Pavements, Adriaan J. VanWijk, Jesus Larralde, C. William Lovell and Wai F. Chen, TE Mar. 89 p161-175.

Radar

General Aviation Collision-Avoidance Alternatives, H. Paul Shuch, TE Sept. 89 p474-492.

Rail transportation

Capital Cost and Operations of High-Speed Rail System in West Germany, Gerhard Pintag, TE Jan. 89 p57-67.

Critical Issues in Safe Transport of Hazardous Materials, Mark Abkowitz, George List and A. Essam Radwan, TE Nov. 89 p608-629.

Noise and Air Pollution of High Speed Rail Systems, R. L. Wayson and W. Bowlby, TE Jan. 89 p20-36.

Railroad engineering

Capital Cost and Operations of High-Speed Rail System in West Germany, Gerhard Pintag, TE Jan. 89 p57-67.

High-Speed Rail Track Design, Jan H. Zicha, TE Jan. 89 p68-83.

Railroad ties

High-Speed Rail Track Design, Jan H. Zicha, TE Jan. 89 p68-83.

Railroad tracks

High-Speed Rail Track Design, Jan H. Zicha, TE Jan. 89 p68-83.

Railroads

Noise and Air Pollution of High Speed Rail Systems, R. L. Wayson and W. Bowlby, TE Jan. 89 p20-36.

Operating and Maintenance Costs of the TGV High-Speed Rail System, Nicholas M. Brand and Marc M. Lucas, TE Jan. 89 p37-47.

Rainfall

Analysis of Climate Effects on Performance of Unpaved Roads, Gonzalo R. Rada, Charles W. Schwartz, Matthew W. Witczak and Siamak Jafroudi, TE July 89 p389-410.

Random error

Experimental Design Approach to NonDestructive Testing of Pavements, Jacob Uzan and Robert L. Lytton, TE Sept. 89 p505-520.

Random vibration

Seismic Risk Analysis of Buried Pipelines, El-Sayed A. Mashaly and Tushar K. Datta, TE May 89 p232-252.

Rapid transit railways

Capital Cost and Operations of High-Speed Rail System in West Germany, Gerhard Pintag, TE Jan. 89 p57-67.

HSR Cost Estimating Techniques in Pennsylvania, Robert E. Schmelz, TE Jan. 89 p84-94.

Operating and Maintenance Costs of the TGV High-Speed Rail System, Nicholas M. Brand and Marc M. Lucas, TE Jan. 89 p37-47.

Rapid transit systems

High-Speed Rail Track Design, Jan H. Zicha, TE Jan. 89 p68-83.

HSR Vehicle Performance Characteristics, John A. Bachman, TE Jan. 89 p48-56.

Noise and Air Pollution of High Speed Rail Systems, R. L. Wayson and W. Bowlby, TE Jan. 89 p20-36.

Ratings

Bus-Ride Panel Rating of Pavement Serviceability, T. F. Fwa and K. T. Gan, TE Mar. 89 p176-191.

Regression models

Prediction of Design Hourly Volume from Road Users' Perspective, Satish C. Sharma and Jin Y. Oh, TE Nov. 89 p646-660.

Reinforced plastic pipe

Analysis and Design of RPM and Other Composite Underground Pipelines, Jey K. Jeyapalan, Michael Thiyagaram, Wesley E. Saleira and B. A. Magid, TE May 89 p219-231.

Relaxation, mechanics

Viscoelastic Approach to Modeling Performance of Buried Pipes, Koon Meng Chua and Robert L. Lytton, TE May 89 p253-269.

Repairing

Model for Comparing Performance of Various Transit Maintenance Repair Policies, Utpal Dutta and T. H. Maze, TE July 89 p450-456.

Ridership

Bus-Ride Panel Rating of Pavement Serviceability, T. F. Fwa and K. T. Gan, TE Mar. 89 p176-191.

Rigid-body dynamics

Loads on a Rigid Box Buried in a Nonlinear Medium, David Z. Yankelevsky, TE Sept. 89 p461-473.

Risk analysis

Seismic Risk Analysis of Buried Pipelines, El-Sayed A. Mashaly and Tushar K. Datta, TE May 89 p232-252.

Roads

Accuracy of Turning Flow Estimates at Road Junctions, Khair S. Jadaan, TE July 89 p438-449.

Admixtures, Douglas O. A. Osula, TE Nov. 89, Evaluation p674-687.

Routing

Multi-Objective Programming Approach for Routing Hazardous Materials, Konstantinos G. Zografos and Christian F. Davis, TE Nov. 89 p661-673.

Safety

Model Study of Safety Grating for Culvert Inlet, Richard N. Weisman, TE Mar. 89 p130-138.

Safety engineering

Model Study of Safety Grating for Culvert Inlet, Richard N. Weisman, TE Mar. 89 p130-138.

Scheduling

Hubbing and Airline Costs, Mark Hansen and Adib Kanafani, TE Nov. 89 p581-590.

Scheduling Method for Demand-Responsive Transportation System, Shinya Kikuchi and Jong-Ho Rhee, TE Nov. 89 p630-645.

Seismic effects

Seismic Risk Analysis of Buried Pipelines, El-Sayed A. Mashaly and Tushar K. Datta, TE May 89 p232-252.

Seismic hazard

Seismic Risk Analysis of Buried Pipelines, El-Sayed A. Mashaly and Tushar K. Datta, TE May 89 p232-252.

Service life

Service Life Assessment of Concrete Pipe Culverts, Fabian C. Hadipriono, Richard E. Larew and Oh-Young Lee, TE Mar. 88 p209-220.

Serviceability

Bus-Ride Panel Rating of Pavement Serviceability, T. F. Fwa and K. T. Gan, TE Mar. 89 p176-191.

Settlement analysis

Loads on a Rigid Box Buried in a Nonlinear Medium, David Z. Yankelevsky, TE Sept. 89 p461-473.

Sewers

Analysis and Design of RPM and Other Composite Underground Pipelines, Jey K. Jeyapalan, Michael Thiyagaram, Wesley E. Saleira and B. A. Magid, TE May 89 p219-231.

Signals

Effect of Platoons on Permissive Left-Turn Capacity: Pilot Study, Ragab M. Mousa and Nagui M. Rouphail, TE Mar. 89 p208-215.

Influence of Stopped Delay on Driver Gap Acceptance Behavior, Olusegun Adebisi and George N. Sama, TE May 89 p305-315.

Signs

Influence of Stopped Delay on Driver Gap Acceptance Behavior, Olusegun Adebisi and George N. Sama, TE May 89 p305-315.

Simulation models

Freeway Surveillance and Control System Using Simulation Model, Rong-Shyang Ju and T. H. Maze, TE July 89 p425-437.

Model for Comparing Performance of Various Transit Maintenance Repair Policies, Utpal Dutta and T. H. Maze, TE July 89 p450-456.

Simulating Activity Chains: German Approach, Kay W. Axhausen and Raimund Herz, TE May 89 p316-325.

Soil strength

Pipe Soil Stiffness Ratio Effect on Flexible Pipe Buckling Threshold, Kenneth K. Kienow and Robert C. Prevost, TE Mar. 89 p112-129.

Soil water

Analysis of Climate Effects on Performance of Unpaved Roads, Gonzalo R. Rada, Charles W. Schwartz, Matthew W. Witczak and Siamak Jafroudi, TE July 89 p389-410.

Soil-pipe interaction

Analysis and Design of RPM and Other Composite Underground Pipelines, Jey K. Jeyapalan, Michael Thiyagaram, Wesley E. Saleira and B. A. Magid, TE May 89 p219-231.

Behavior and Design of Buried Very Flexible Plastic Pipes, Jey K. Jeyapalan, S. Wesley Ethiyajeevakaruna and Bruce A. Boldon, TE Nov. 87 p642-657.

Pipe Soil Stiffness Ratio Effect on Flexible Pipe Buckling Threshold, Kenneth K. Kienow and Robert C. Prevost, TE Mar. 89 p112-129.

Viscoelastic Approach to Modeling Performance of Buried Pipes, Koon Meng Chua and Robert L. Lytton, TE May 89 p253-269.

Spatial distribution

Analysis of Water Distribution Pipe Failure Types in Winnipeg, Canada, I. C. Goulter and A. Kazemi, TE Mar. 89 p95-111.

Stabilization

Admixtures, Douglas O. A. Osula, TE Nov. 89, Evaluation p674-687.

State-of-the-art reviews

Traffic Platoon Dispersion Modeling, Richard W. Denney, Jr., TE Mar. 89 p193-207.

Stiffness

Pipe Soil Stiffness Ratio Effect on Flexible Pipe Buckling Threshold, Kenneth K. Kienow and Robert C. Prevost, TE Mar. 89 p112-129.

Technology assessment

Capital Cost and Operations of High-Speed Rail System in West Germany, Gerhard Pintag, TE Jan. 89 p57-67.

Testing

Failure of Concrete Pavements in Test Tracks, Yu T. Chou, TE Sept. 89 p493-504.

Tests

Failure of Concrete Pavements in Test Tracks, Yu T. Chou, TE Sept. 89 p493-504.

Thickness

AASHTO Flexible Pavement Design Equation Study, Ronald L. Baus and Jeth A. Fogg, TE Sept. 89 p559-564.

Time dependence

Viscoelastic Approach to Modeling Performance of Buried Pipes, Koon Meng Chua and Robert L. Lytton, TE May 89 p253-269.

Traffic

Failure of Concrete Pavements in Test Tracks, Yu T. Chou, TE Sept. 89 p493-504.

Traffic accident analysis

Analysis of Heavy Truck Accident Data—Exposure Based Approach, Snehamay Khasnabis and Ramiz Al-Assar, TE May 89 p298-304.

Traffic accidents

Analysis of Heavy Truck Accident Data—Exposure Based Approach, Snehamay Khasnabis and Ramiz Al-Assar, TE May 89 p298-304.

Safety of High-Occupancy Vehicle Lanes Without Physical Separation, Thomas F. Golob, Wilfred W. Recker and Douglas W. Levine, TE Nov. 89 p591-607.

Traffic analysis

Accuracy of Turning Flow Estimates at Road Junctions, Khair S. Jadaan, TE July 89 p438-449.

Prediction of Design Hourly Volume from Road Users' Perspective, Satish C. Sharma and Jin Y. Oh, TE Nov. 89 p646-660.

Traffic capacity

Effect of Platoons on Permissive Left-Turn Capacity: Pilot Study, Ragab M. Mousa and Nagui M. Rouphail, TE Mar. 89 p208-215.

Influence of Stopped Delay on Driver Gap Acceptance Behavior, Olusegun Adebisi and George N. Sama, TE May 89 p305-315.

Traffic conflicts

Analysis of Heavy Truck Accident Data—Exposure Based Approach, Snehamay Khasnabis and Ramiz Al-Assar, TE May 89 p298-304.

Traffic congestion

Cost of Driving Comfort and Convenience for Two-Lane Highways, Satish C. Sharma and Pawan J. Lingras, TE May 89 p283-297.

Traffic control

Freeway Surveillance and Control System Using Simulation Model, Rong-Shyang Ju and T. H. Maze, TE July 89 p425-437.

General Aviation Collision-Avoidance Alternatives, H. Paul Shuch, TE Sept. 89 p474-492.

Traffic control devices

Freeway Surveillance and Control System Using Simulation Model, Rong-Shyang Ju and T. H. Maze, TE July 89 p425-437.

General Aviation Collision-Avoidance Alternatives, H. Paul Shuch, TE Sept. 89 p474-492.

Use of Binary Choice Decision Process for Adaptive Signal Control, Feng-Bor Lin, TE May 89 p270-282.

Traffic flow

Accuracy of Turning Flow Estimates at Road Junctions, Khair S. Jadaan, TE July 89 p438-449.

Cost of Driving Comfort and Convenience for Two-Lane Highways, Satish C. Sharma and Pawan J. Lingras, TE May 89 p283-297.

Effect of Platoons on Permissive Left-Turn Capacity: Pilot Study, Ragab M. Mousa and Nagui M. Rouphail, TE Mar. 89 p208-215.

Freeway Surveillance and Control System Using Simulation Model, Rong-Shyang Ju and T. H. Maze, TE July 89 p425-437.

Safety of High-Occupancy Vehicle Lanes Without Physical Separation, Thomas F. Golob, Wilfred W. Recker and Douglas W. Levine, TE Nov. 89 p591-607.

Traffic flow pattern

Traffic Platoon Dispersion Modeling, Richard W. Denney, Jr., TE Mar. 89 p193-207.

Traffic management

Application of VADAS to Complex Traffic Environments, William Young, TE Sept. 89 p521-536.

Traffic planning

Cost of Driving Comfort and Convenience for Two-Lane Highways, Satish C. Sharma and Pawan J. Lingras, TE May 89 p283-297.

Traffic safety

Analysis of Heavy Truck Accident Data—Exposure Based Approach, Snehamay Khasnabis and Ramiz Al-Assar, TE May 89 p298-304.

Multi-Objective Programming Approach for Routing Hazardous Materials, Konstantinos G. Zografos and Christian F. Davis, TE Nov. 89 p661-673.

Safety of High-Occupancy Vehicle Lanes Without Physical Separation, Thomas F. Golob, Wilfred W. Recker and Douglas W. Levine, TE Nov. 89 p591-607.

Traffic signal controllers

Traffic Platoon Dispersion Modeling, Richard W. Denney, Jr., TE Mar. 89 p193-207.

Use of Binary Choice Decision Process for Adaptive Signal Control, Feng-Bor Lin, TE May 89 p270-282.

Traffic signals

Traffic Platoon Dispersion Modeling, Richard W. Denney, Jr., TE Mar. 89 p193-207.

Traffic speed

Safety of High-Occupancy Vehicle Lanes Without Physical Separation, Thomas F. Golob, Wilfred W. Recker and Douglas W. Levine, TE Nov. 89 p591-607.

Traffic surveillance

Freeway Surveillance and Control System Using Simulation Model, Rong-Shyang Ju and T. H. Maze, TE July 89 p425-437.

Traffic volume

Prediction of Design Hourly Volume from Road Users' Perspective, Satish C. Sharma and Jin Y. Oh, TE Nov. 89 p646-660.

Safety of High-Occupancy Vehicle Lanes Without Physical Separation, Thomas F. Golob, Wilfred W. Recker and Douglas W. Levine, TE Nov. 89 p591-607.

Transportation

Critical Issues in Safe Transport of Hazardous Materials, Mark Abkowitz, George List and A. Essam Radwan, TE Nov. 89 p608-629.

Transportation planning

Multi-Objective Programming Approach for Routing Hazardous Materials, Konstantinos G. Zografos and Christian F. Davis, TE Nov. 89 p661-673.

Synthetic Models for Through Trips in Small Urban Areas, Arun Chatterjee and Meenakshi Raja, TE Sept. 89 p537-555.

Transportation safety

Critical Issues in Safe Transport of Hazardous Materials, Mark Abkowitz, George List and A. Essam Radwan, TE Nov. 89 p608-629.

Impact of Fuel Conservation Measures on Safe Truck Downgrade Speeds, Brian L. Bowman and Janet A. Coleman, TE July 89 p351-369.

Multi-Objective Programming Approach for Routing Hazardous Materials, Konstantinos G. Zografos and Christian F. Davis, TE Nov. 89 p661-673.

Transportation system costs

Multi-Objective Programming Approach for Routing Hazardous Materials, Konstantinos G. Zografos and Christian F. Davis, TE Nov. 89 p661-673.

Transportation systems

Model for Comparing Performance of Various Transit Maintenance Repair Policies, Utpal Dutta and T. H. Maze, TE July 89 p450-456.

Scheduling Method for Demand-Responsive Transportation System, Shinya Kikuchi and Jong-Ho Rhee, TE Nov. 89 p630-645.

Travel costs

Cost of Driving Comfort and Convenience for Two-Lane Highways, Satish C. Sharma and Pawan J. Lingras, TE May 89 p283-297.

Multi-Objective Programming Approach for Routing Hazardous Materials, Konstantinos G. Zografos and Christian F. Davis, TE Nov. 89 p661-673.

Travel demand

Scheduling Method for Demand-Responsive Transportation System, Shinya Kikuchi and Jong-Ho Rhee, TE Nov. 89 p630-645.

Travel modes

Synthetic Models for Through Trips in Small Urban Areas, Arun Chatterjee and Meenakshi Raja, TE Sept. 89 p537-555.

Travel patterns

Safety of High-Occupancy Vehicle Lanes Without Physical Separation, Thomas F. Golob, Wilfred W. Recker and Douglas W. Levine, TE Nov. 89 p591-607.

Scheduling Method for Demand-Responsive Transportation System, Shinya Kikuchi and Jong-Ho Rhee, TE Nov. 89 p630-645.

Simulating Activity Chains: German Approach, Kay W. Axhausen and Raimund Herz, TE May 89 p316-325.

Synthetic Models for Through Trips in Small Urban Areas, Arun Chatterjee and Meenakshi Raja, TE Sept. 89 p537-555.

Travel time

Cost of Driving Comfort and Convenience for Two-Lane Highways, Satish C. Sharma and Pawan J. Lingras, TE May 89 p283-297.

Multi-Objective Programming Approach for Routing Hazardous Materials, Konstantinos G. Zografos and Christian F. Davis, TE Nov. 89 p661-673.

Trip distribution models

Scheduling Method for Demand-Responsive Transportation System, Shinya Kikuchi and Jong-Ho Rhee, TE Nov. 89 p630-645.

Synthetic Models for Through Trips in Small Urban Areas, Arun Chatterjee and Meenakshi Raja, TE Sept. 89 p537-555.

Trip forecasting

Synthetic Models for Through Trips in Small Urban Areas, Arun Chatterjee and Meenakshi Raja, TE Sept. 89 p537-555.

Trucks

Analysis of Heavy Truck Accident Data—Exposure Based Approach, Snehamay Khasnabis and Ramiz Al-Assar, TE May 89 p298-304.

Effect of Increased Truck Tire Pressure on Asphalt Concrete Pavements, Ok-Kee Kim, Chris A. Bell and James E. Wilson, TE July 89 p329-350.

Impact of Fuel Conservation Measures on Safe Truck Downgrade Speeds, Brian L. Bowman and Janet A. Coleman, TE July 89 p351-369.

Issues and Problems of Moving Goods in Urban Areas, ASCE Committee on Urban Goods Movement, TE Jan. 89 p4-19.

Unpaved roads

Analysis of Climate Effects on Performance of Unpaved Roads, Gonzalo R. Rada, Charles W. Schwartz, Matthew W. Witczak and Siamak Jafroudi, TE July 89 p389-410.

Urban areas

Synthetic Models for Through Trips in Small Urban Areas, Arun Chatterjee and Meenakshi Raja, TE Sept. 89 p537-555.

Urban planning

Issues and Problems of Moving Goods in Urban Areas, ASCE Committee on Urban Goods Movement, TE Jan. 89 p4-19.

Urban transportation

Issues and Problems of Moving Goods in Urban Areas, ASCE Committee on Urban Goods Movement, TE Jan. 89 p4-19.

Simulating Activity Chains: German Approach, Kay W. Axhausen and Raimund Herz, TE May 89 p316-325.

Synthetic Models for Through Trips in Small Urban Areas, Arun Chatterjee and Meenakshi Raja, TE Sept. 89 p537-555.

U.S. Army Corps of Engineers

Failure of Concrete Pavements in Test Tracks, Yu T. Chou, TE Sept. 89 p493-504.

Variability

Experimental Design Approach to NonDestructive Testing of Pavements, Jacob Uzan and Robert L. Lytton, TE Sept. 89 p505-520.

Videotape

Application of VADAS to Complex Traffic Environments, William Young, TE Sept. 89 p521-536.

Viscoelasticity

Viscoelastic Approach to Modeling Performance of Buried Pipes, Koon Meng Chua and Robert L. Lytton, TE May 89 p253-269.
